RECENT PROJECT

Stock Trading Platform

- Developed a full-stack web application inspired by "ZERODHA CLONE". utilizing stock web application with JWT authentication, enabling users to trade stocks, manage portfolios. and RESTful APIs using MERN stack.

Wanderlust

- Developed a full-stack web application inspired by "AIRBNB", utilizing EJS templating for the front-end, Express.js and Node.js for the backend, and MongoDB for the persistence.
- Implemented MVC architecture for better organization and maintainability.
- Designed database model for listings, reviews, and users.

Weather App

- Developed a responsive weather application using ReactJS, providing users with up-to-date weather information.
- Integrated with a weather API to retrieve and display real-time weather data, ensuring accurate and current information.

EXPERIENCE

Techpile Technology Pvt.Ltd.

Aug 2025 - Present

- Contributed to the development of web applications using the MERN stack, including front-end development with React, back-end API development with Express.JS and Node.JS and database management with MongoDB.
- I have also completed full stack web application in MERN technology from delta course "APNA COLLEGE".
